

Input Ricker signal:

(a)

Effect of generation directivity:

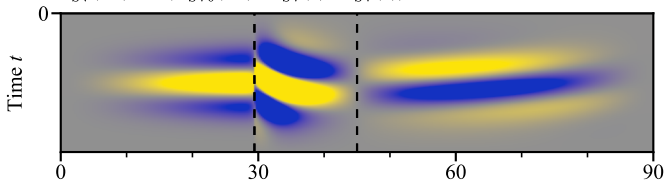

$$u_{SV}(\theta, t) = \Re(U_{SV0}(\theta, t) \cdot G_{SV}(\theta))$$

(b)

Effect of generation & detection directivities:

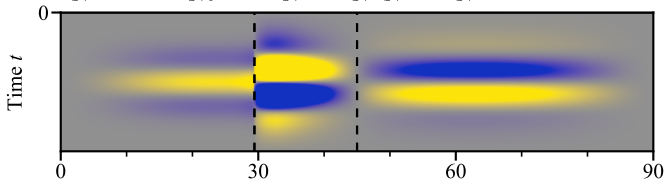

$$u_{SV}(\theta, t) = \Re(U_{SV0}(\theta, t) \cdot G_{SV}(\theta) \cdot D_{SV}(\theta))$$

(c)

Effect of generation, HFS reflection & detection directivities:

$$u_{SV}(\theta, t) = \Re(U_{SV0}(\theta, t) \cdot G_{SV}(\theta) \cdot R_{SV-SV}(\theta) \cdot D_{SV}(\theta))$$

(d)

Angle of SV wave incidence θ_{SV} (°)

Displacement:
